

PROJECT MANAGEMENT CHALLENGE 2006

Third Annual NASA Project Management Conference

BIOGRAPHY

Mr. Robert Webster
Estimating Specialist
Aerojet-Sacramento

Biography:

Robert Webster is a multi-degreed engineer that has worked in the Aerospace industry for the last 37 years as a Design Engineer, Test Engineer, Project Engineer and for the last 16 years he has been in the Business Development group of Aerojet as a proposal Estimating Specialist. He has been Society of Cost Estimates & Analysts (SCEA) certified since 1990 and has given previous presentations on Cost Estimating Techniques and Statistical Risk Assessment.

The presentation was created as an optimal method of organizing and creating large government cost proposals by large groups of people from his experiences. He has participated in thousands of cost proposals to develop this insight and believes proposals can be done efficiently and effectively if the proper communication events and sequences are used.
